Steve Mauro
Director of Site Development
New York Market

To Whom It May Concern:

I would like to take an opportunity to offer a formal recommendation for Stephen Banks and KMB Engineering. In my capacity as Director of Site Development at MetroPCS NY, LLC, I have worked closely with KMB Engineering for the last two years, and have worked with Stephen Banks on previous projects throughout the past five years.

As Senior Vice President of KMB Engineering, Steven and his team have been responsible for the design and deployment of more than three hundred cell sites in the New York Metropolitan area. In addition, KMB has been instrumental in the development of standards for design and construction for MetroPCS NY LLC. KMB's efforts have been a major factor in our companies successful Network Deployment.

I have also worked closely with Stephen Banks on wireless projects prior to working at Metro PCS. Stephen brings a wealth of knowledge and a high level of professionalism to any project he is involved with. He is able to effectively work through tight time lines and high pressure situations. He stands behind the product he produces and goes above and beyond to make things right should there be an issue. I am confident in saying that any project or venture that Stephen Banks is involved in will be highly successful.

In closing, I highly recommend Stephen Banks and KMB engineering for your program and hope that you will carefully consider them.

Sincerely,

August 3, 2010

To Whom it May Concern:

Please accept the following letter of recommendation for Mr. Stephen J. Banks, Senior Vice President KMB Design Group, LLC.

Stephen and his firm have been providing Clearwire a high level of professionalism and service since our WiMax Project initiated. His Team is able to "stay on task" by meeting aggressive deadlines, offering creative options, and understanding our company's priorities.

I would consider them for future projects and would rank them as a valued asset.

Sincerely,

T Cataldo
Clearwire Network Deployment

To Whom It May Concern:

Dear Sir or Madam:

I have worked with Stephen Banks since 2003, in both our NJ and NY markets. Stephen and his team at KMB Design Group, LLC provide exemplary customer service meeting our aggressive project timeframes.

We worked together on the following projects:

1. **Disaster Recovery** – this project encompassed over 400 sites for the design of battery and generator back-up units on our rooftop facilities. KMB brought design innovations to this project which we completed in 2009.
2. **New Builds NYC** – Stephen and KMB have been the leading A&E firm in NYC for T-Mobile since 2004. They have completed over 400 new site designs and can be relied on to provide excellence in a timely manner including complex design solutions, BSA and CPC approvals.
3. **UMTS** – Stephen and KMB have completed over 1,200 UMTS upgrade projects. The SOW included audits, implementation recommendations, structural analysis and detailed design drawings. We relied heavily on Stephen and KMB to meet our on-air goals.
4. **New Builds NJ** – I brought KMB into NJ to resolve project design issues we were having with other A&E vendors.

In 2008 we relied on KMB to be ahead of the curve concerning the new FDNY code. KMB was a leading firm working with the FDNY concerning code interpretation, application and potential waiver request requirements. I highly recommend Stephen and KMB Design Group, LLC.

Should you have any questions do not hesitate in contacting me.

Sincerely,

Ronald Moore
Manager
NY/NJ Engineering & Construction

Subject: KMB Design Group

Hi Dan.

Per our discussion at PCIA, I just wanted to confirm that KMB does quite a bit of FLO TV's broadcast site A&E Design, construction and special coverage projects work. They have been a great addition to our team and can be relied upon to deliver great results. They currently have the lowest construction duration of any firm on the project and they are working some of our toughest markets in the NE Region. Please let me know if you require any additional information on our experience with this firm.

Hope you are well...

Thanks!

Deb

Client References

The following recommendations and references are for Stephen Banks – Partner and Sr. Vice President of KMB Design Group, LLC who heads the Telecommunication Division.

Stephanie Mehring PMP – Northrop Grumman

Stephen's professional reputation placed him in a position to assist and advice regarding engineering, zoning, and building code issues. Stephen with Innovative engineering designed approximately 200 sites to support a larger wireless broadband data network for use by New York City agencies. This network is a public safety benchmark as well as the future for how municipalities will handle mission critical and operational communication. The expertly designed hardware and software utilized for this system combined with network design featuring redundant circuits requires unique site specific engineering. Steve and his team are the players I look to for particularly complex or time sensitive designs. Several days ago, Steve's KMB team stayed up until at least 4:00 AM tirelessly preparing a last minute design / presentation request that I made that same morning. After a full day and night of work, Northrop Grumman's deadline was met thanks to the hard work of Steve and his KMB team. I say with confidence that I count on Steve to deliver consistent, high quality, timely and creative results.

Kevin Edwards – Bechtel

Stephens level of detail is excellent and he understands the expectations of his customers. He is eager to provide the deliverable that is expected and will see to it that the deliverable meets schedule and technical requirements. Excellent person to work with and a team player.

Deborah Barrett – FLO TV (Qualcomm)

Stephen joined FLO TV's national broadcast network deployment project in 2008. His firm has delivered high quality A&E and construction services during this time. Stephen is solution oriented and can be counted on to deliver on his commitments. This has been a productive partnership and I believe that Stephen and his firm are committed to our quality, cost and time to market objectives.

Thomas Voltero – Attorney, Duval & Klasnick, LLC

I've worked with Stephen on several projects and he has always been extremely responsive, professional, and detail-oriented. He goes the extra mile to ensure that the client is completely satisfied. I would highly recommend him.

Ken Wedholm – Stealth Concealment Solutions, Inc

Stephen and I have worked on many projects together in the past. He is always very professional, diligent, and timely with all of his endeavors. He is a straight shooter who can get the work done when required. Besides all that, he's just a good guy to work with.

Matt Bartlett - HPC

Steve is always on top of all projects that we have active with KMB. If we need a site visit the next day, or a quick change to some drawings, we can count on Steve getting it taken care of. Steve and his team are experts at what they do and would be welcome on any future project that we have.
